[T.D. 88-12, 53 FR 9292, Mar. 22, 1988, as amended by T.D. 93-61, 58 FR 41425, Aug. 4, 1993]

### § 122.75 Complete manifest.

(a) *Contents.* A complete air cargo manifest shall list all cargo laden, and show for each item the air waybill number, or marks and numbers on packages and the type of goods carried. If an item does not require a Shipper's Export Declaration, it shall be noted on the air cargo manifest.

(1) *Shipments on an air waybill.* A copy of each air waybill on which shipments are listed may be attached to the air cargo manifest, and the number of the air waybill may be listed on the air cargo manifest. The statement "Cargo as per Air Waybill Attached" must appear on the air cargo manifest if this is done.

(2) *Direct departure.* This subsection applies only to direct departures of shipments requiring a Shipper's Export Declaration. A copy of each declaration may be attached to the air cargo manifest, and the number of each declaration shall be listed on the air cargo manifest in the column for air waybill numbers. The statement "Cargo as per Export Declarations Attached" must appear on the manifest if this is done.

(b) *Statement required.* (1) When all required documents are ready for filing, the following statement must appear on the air cargo manifest, or on the general declaration form if an air cargo manifest is not required:

Attached Shipper's Export Declarations represent a full and complete enumeration and description of the cargo carried in this flight except that listed on the cargo manifest.

(2) If an incomplete set of documents has been filed and is later completed, the following statement shall accompany the Shipper's Export Declarations and any required air cargo manifests:

Attached Shipper's Export Declarations represent a full and complete enumeration and description of the cargo carried on aircraft No. \_\_\_\_\_, Flight No. \_\_\_\_\_ cleared direct for \_\_\_\_\_, on \_\_\_\_\_ except cargo listed on any cargo manifest required to be filed for such flight.

**§ 122.75a Electronic manifest requirement for passengers onboard commercial aircraft departing from the United States.**

(a) *Definitions.* The definitions set forth in § 122.49a(a) also apply for purposes of this section.

(b) *Electronic departure manifest*—(1) *General*—(i) *Basic requirement.* Except as provided in paragraph (c) of this section, an appropriate official of each commercial aircraft (carrier) departing from the United States en route to any port or place outside the United States must transmit to the Advance Passenger Information System (APIS; referred to in this section as the Customs and Border Protection (CBP) system), the electronic data interchange system approved by CBP for such transmissions, an electronic passenger departure manifest covering all passengers checked in for the flight. A passenger manifest must be transmitted separately from a crew member manifest required under § 122.75b if transmission is in U.S. EDIFACT format. The passenger manifest must be transmitted to the CBP system at the place and time specified in paragraph (b)(2) of this section, in the manner set forth under paragraph (b)(1)(ii) of this section.

(ii) *Transmission of manifests.* A carrier required to make passenger departure manifest transmissions to the CBP system under paragraph (b)(1)(i) of this section must make the required transmissions covering all passengers checked in for the flight in accordance with either paragraph (b)(1)(ii)(A), (B), (C), or (D) of this section, as follows:

(A) *Non-interactive batch transmission option.* A carrier that chooses not to transmit required passenger manifests by means of a CBP-certified interactive electronic transmission system under paragraph (b)(1)(ii)(B), (C), or (D) of this section must make batch manifest transmissions in accordance with this paragraph (b)(1)(ii)(A) by means of a non-interactive electronic transmission system approved by CBP. The carrier may make a single, complete batch manifest transmission containing the data required under paragraph (b)(3) of this section for all pas-

sengers checked in for the flight or two or more partial batch manifest transmissions, each containing the required data for the identified passengers and which together cover all passengers checked in for the flight. After receipt of the manifest information, the CBP system will perform an initial security vetting of the data and send to the carrier by a non-interactive transmission method a “not-cleared” instruction for passengers identified as requiring additional security analysis and a “selectee” instruction for passengers requiring secondary screening (e.g., additional examination of the person and/or his baggage) under applicable Transportation Security Administration (TSA) requirements. The carrier must designate as a “selectee” any passenger so identified during initial security vetting, in accordance with applicable TSA requirements. The carrier must not issue a boarding pass to, or load the baggage of, any passenger subject to the “not-cleared” instruction and must contact the Transportation Security Administration (TSA) to seek resolution of the “not-cleared” instruction by providing, if necessary, additional relevant information relative to the “not-cleared” passenger. TSA will notify the carrier if a “not-cleared” passenger is cleared for boarding or downgraded to “selectee” status based on the additional security analysis.

(B) *Interactive batch transmission option.* A carrier, upon obtaining CBP certification, in accordance with paragraph (b)(1)(ii)(E) of this section, may make manifest transmissions by means of an interactive electronic transmission system configured for batch transmission of data and receipt from the CBP system of appropriate messages. A carrier operating under this paragraph must make manifest transmissions by transmitting a single, complete batch manifest containing the data required under paragraph (b)(3) of this section for all passengers checked in for the flight or two or more partial batch manifests, each containing the required data for the identified passengers and which together cover all passengers checked in for the flight. In the case of connecting passengers arriving at the connecting
